

AI-Powered PDF Offer Upload

Turn Supplier PDFs into Usable Data

Procurement teams receive supplier offers as PDFs every day that require hours of manual data entry and verification. The Onventis AI-Powered PDF Offer Upload revolutionizes this process by enabling buyers to upload a supplier's offer simply.

Our AI automatically reads, understands, and transfers the data into Onventis Buyer.

Offer Upload

1. Upload 2. AI Processing 3. Transfer 4. Review

Drag and drop your offer PDFs into the upload area or select them from your computer. Onventis AI will read the document, convert it into editable data, and prepare it for direct transfer to your shopping cart. Once all files are uploaded successfully, you can close this window with the Close button, and the offers will appear in your overview.

File Upload

Click or drop PDF files

Max file size for upload: 20.0 MB
